

A photography Website:

I want my website to feel inviting but I want my overall design to focus on my photographs. I want it to feel outdoors and adventurous as well as a relaxing and calm vibe. I would include some of my own photographs I have taken. I would showcase my photographs and videos from hikes or traveling. I would have at least 5 tabs (home, photographs, film, prints for sale, about, contact). I have looked at these websites to help gather my ideas:

<http://www.kylekotajarvi.com>

<https://clarklittlephotography.com>

<https://thomasheaton.co.uk>
